Application I from Medical history

Dear Patient,

Thank you for choosing our practice for dental treatment. It is managed using an ordering system. For you, this brings the advantage of reduced waiting times. However, medically necessary and not foreseeable treatment measures may lead to appointments not being exactly complied with in every case. We ask for your understanding. If you are not able to keep an appointment agreed with us, we kindly ask you to cancel it at the earliest possible time, that means, at least 24 hours in advance. If you come to our practice by reason of unforeseeable emergencies (e. g. acute pain), you will most likely have to wait for some time.

If you are insured under the statutory health insurance, it is absolutely necessary that you present your health insurance card to us no later than 10 days after treatment has been started, as otherwise the costs incurred by the treatment will have to be charged to your private account. If you are insured under the statutory health insurance, you can choose between a treatment under the statutory health insurance, using the health insurance card, and the treatment on private basis in accordance with Sec. 13 SGB V (reimbursement of costs).
